This is an aerial photograph of a river region. A red line traces the course of a river, which is labeled 'Wild and Scenic Loxahatchee River'. A yellow line outlines a specific area, labeled 'Historic Cypress Creek'. A blue line with several small colored squares (purple, green, blue) is located in the lower-left quadrant. A red-outlined area in the bottom center is labeled 'Riverbend Park: Site of the Seminole Indian War, 1838'. The background shows a mix of green fields, brown agricultural land, and some urban development on the right side.

Riverbend Park:
Site of the
Seminole Indian
War, 1838

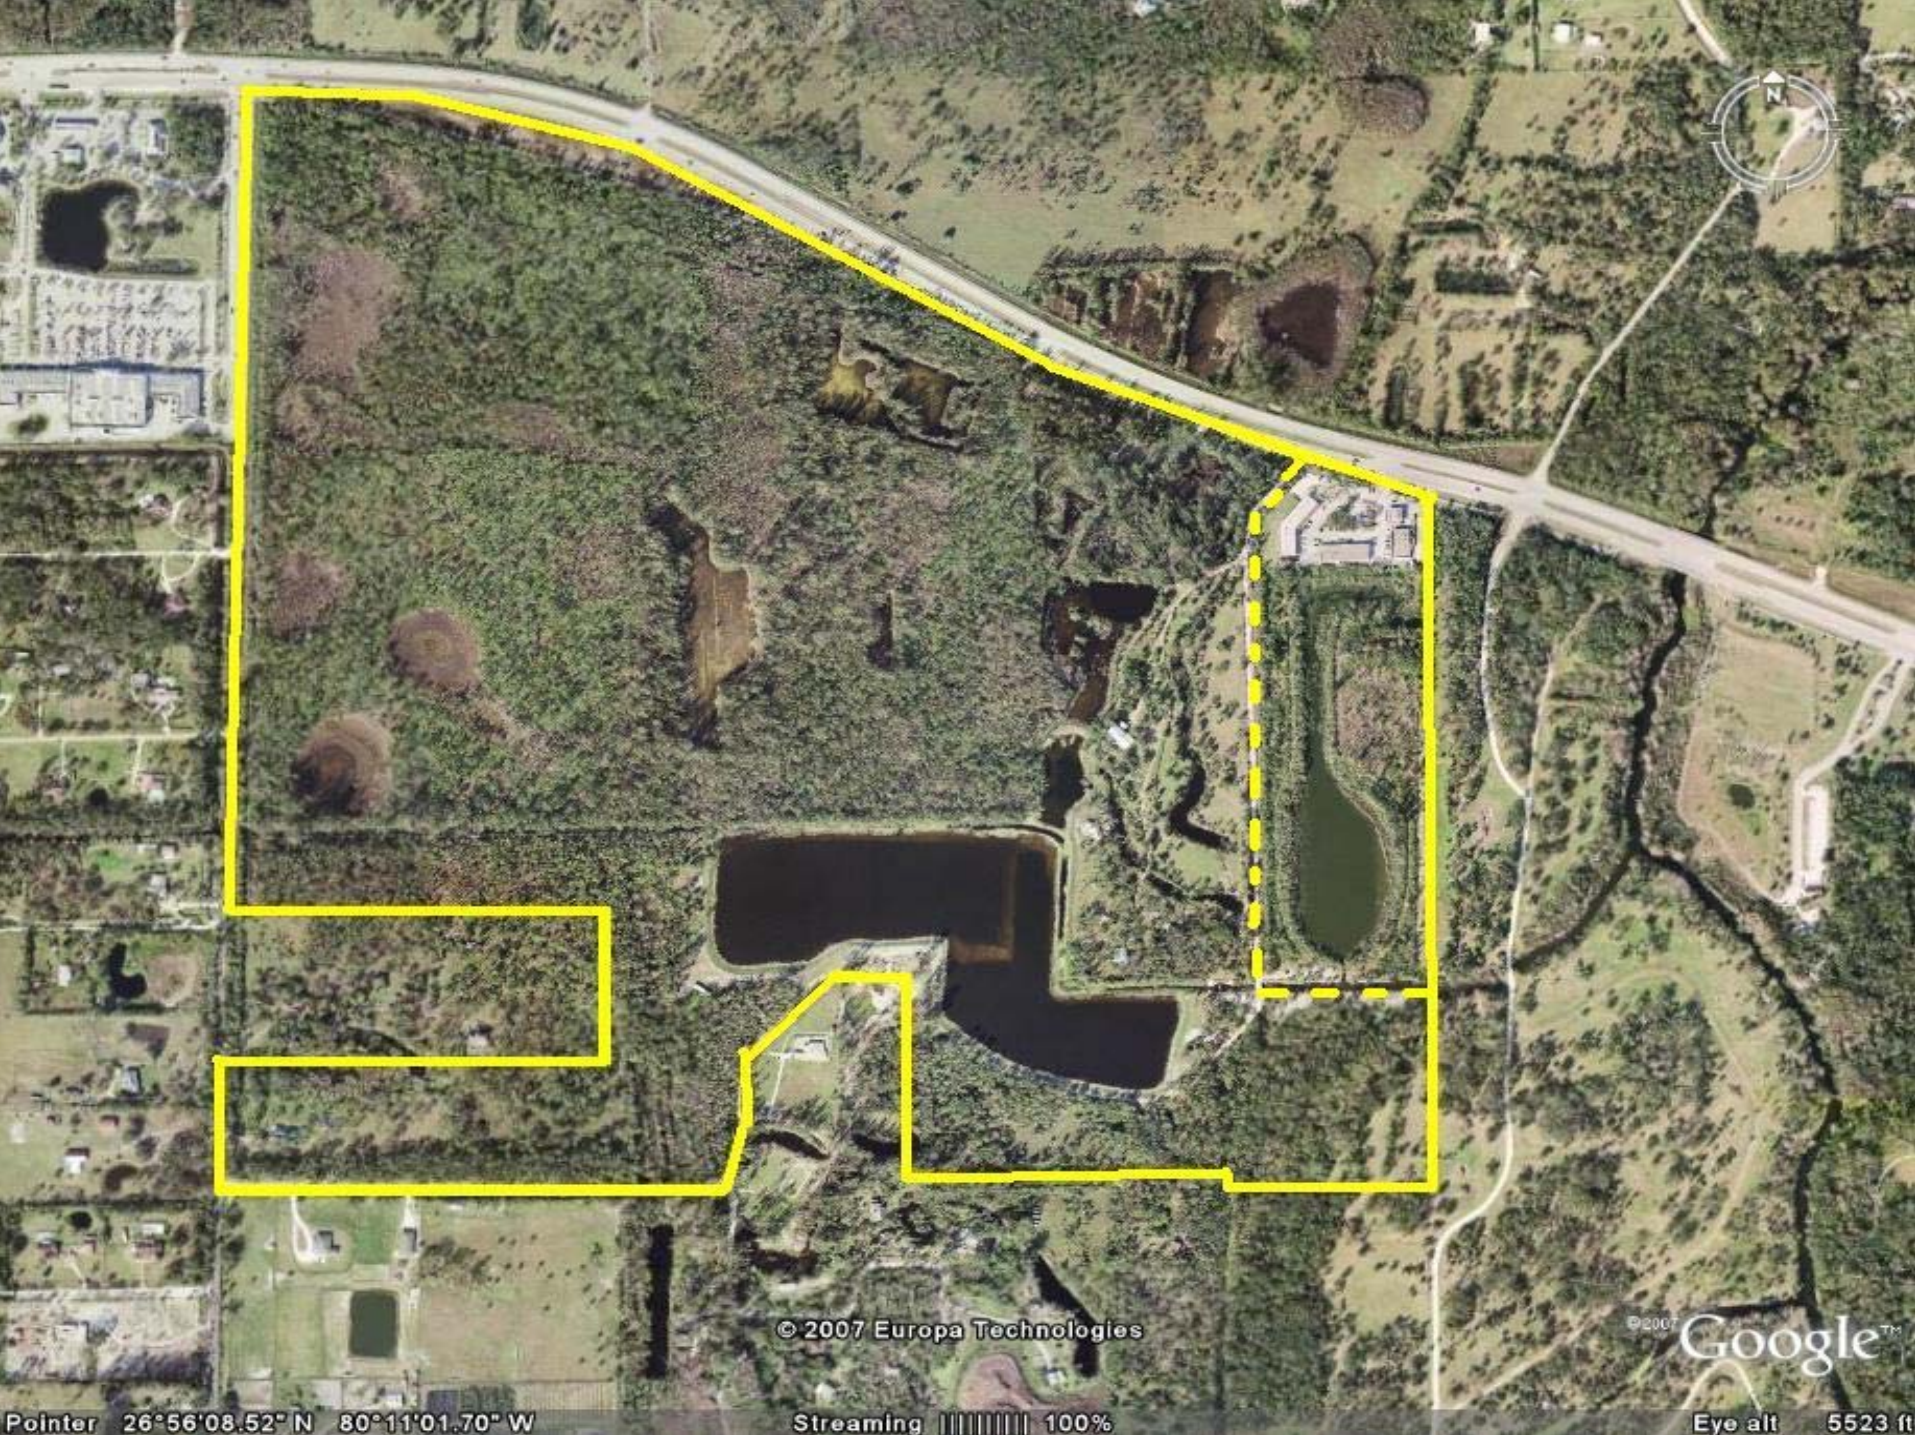

This is an aerial photograph of a river area, likely in Florida, showing a mix of natural and developed land. A red line outlines a large section of the river and surrounding land. A yellow line outlines a different section, primarily agricultural. A blue line with markers is in the lower-left. A highway runs diagonally across the center. Labels identify the river, a historic creek, and a park site.

Multi-faceted

- Environmental Restoration
- Recreation – Hiking, Equestrian
- Water Quality Treatment
- Local Storage – Flood Protection
- Local Storage – Base Flow

Base Flow Contribution:

➤ Assuming:

- Wet Season = 17'
- Average ground = 15.5'
- Canal 2 control = 13'

➤ Then:

- Nat. Area Storage = 203 ac-ft
- Reservoir Storage = 257 ac-ft
- Total Storage = 460 ac-ft =
232 cfs

5 cfs for 46 Days

Partners are Needed

- PBC Environmental Resources
- PBC Parks
- Solid Waste Authority
- South Indian River WCD
- Lox River Pres. Initiative
- Lox. River Env. Control District
- SFWMD?
